## CREDIT UNION NEWS

Laurien Rahimi was elected and Kathy Powell was reelected to the Citco Board of Directors through member votes at our Annual Meeting in May.

We still have an opening on our Supervisory Committee. If you are interested and able to volunteer once a month for about an hour, please contact Tracy.

## Choosing the right PIN Number

**"Your PIN number should not be anything that can be found in your wallet"**

When choosing the PIN number for your debit or ATM card, it is important to keep in mind a few simple tips. No one thinks that their wallet will be stolen, but if it is, you certainly do not want your PIN number to be obvious to the thief as this will make it much easier to gain access to your money. A PIN number should not be easy to guess. Do not use obvious combinations such as '1234' or '1111'. Also, you should never use information that can be found in your wallet, such as a birth date or address. This is information that can be found right on your driver's license.

A few ideas to help you pick a PIN; use a child's birth date, your wedding anniversary, a parent's birth date, or a mixture of important dates. These are all combinations that you will be able to easily remember, but are not obvious to an outsider.

### Board Members
